In FY 2018, the Wage and Hour staffing was cut by 55% which has forced the division to redirect its efforts to comply with the Child Labor and Minimum Wage mandates of the Revised Statutes of Missouri. As a result of this reduction, the average workload for investigators has increased from 27 per month to 102 per month. The division has had to temporarily suspended its education and outreach activities related to wage and hour and other staff have taken up some Wage and Hour duties including approval of Child Labor Entertainment Permits and Work. The increased workload will contribute to delays in investigations of violations of Child Labor and Minimum Wage laws, depriving some workers of fair wages and putting Missouri children in dangerous work environments.

Currently there are twenty-one ALJs and six Chief ALJs for a total of twenty-eight. Caseload resolutions for ALJs currently average 84 per month per ALJ. As of September 8, 2017, there is a backlog of 51,516 claims waiting to be resolved with an average wait-time for docketing of 11.64 months. Additional judges, assigned to areas with the highest caseloads and backlogs, would decrease wait times for claimants and employers waiting for final rulings on their cases.

State Unemployment Insurance (UI) programs are a critical component of the nation's social and economic safety net. UI programs are dependent on information technology (IT) systems to carry out UI operations. Funding costs for maintaining IT systems have grown substantially, which cuts into funding available for states to carry out critical UI functions. Missouri, and at least 5 other states, who share a common UI modernization vendor, will apply for a federal grant to develop a sustainability model for the shared management of maintenance and operational costs. This model will be intended to promote cost efficiencies across multiple states and enable greater leveraging of existing UI modernization investments. This item will serve as a placeholder until the Federal grant amount(s) are known.
